

Art. 2030
Oleodynamic press with hot or cold platens
Mod. "JOLLY"

Art. 2031
Oleodynamic press with hot or cold platens
Mod. "S.2."

Technical data "JOLLY"

Platens dimensions mm.	2200 x 1000	2500 x 1200	3000 x 1200
Opening mm.	510	510	510
Cylinders no.	4	4	4

Overall dimensions:

Length mm.	2560	2860	3360
Width mm.	1170	1370	1370
Height mm.	1945	1945	1945

PERFORMANCES:

The Jolly press, in two different versions for cold or hot glueing, has been realized to obtain the biggest facility and functionality: in fact it can be very easily maneuvered, the overall dimensions are limited and it has loading possibility on all four sides.

The working pressure, calibrated in shop, is sufficient for all operation the machine is programmed to, as for cold or hot glueing of the drums.

The hot platens version is equipped with pump, boiler end hydraulic connections.

In request:

- 1) Can be equipped with an electrical boiler.
- 2) Can be supplied in detechable version to reduce the overall dimensions while transporting and to facilitate the access into the working shop.
Movable divided platen.

Technical data "S/2"

Useful platen dimensions	2500 x 1000	mm.
Pressure cylinders	No. 2	
Max. specific pressure	1	Kg./cm ²
Total pressure	25	Tons.
Opening / stroke	650	mm.
Motor rating	1,5	HP
Overall dimensions	2860 x 1210 x 1615	mm.

The same machine is manufactured with hot platens, useful platens opening mm. 200 with boiler pump of expansion pot.
