

KUPER SWT 23 XS

Automatic planing and moulding machines

KUPER

KUPER SWT 23 XS

The smallest KUPER – incredibly strong.

More possibilities for smaller and medium-sized business.

No matter whether you produce furniture parts, profiles, planed goods, window- and door scantlings or similar – the KUPER SWT 23 XS does it all, uncomplicated and perfect. All the same it is compact, effective, efficient and flexible in everyday use.

No other "small" 4-side moulder in the market is so well-equipped and so perfectly suitable for craftsmen. The KUPER SWT 23 XS offers maximum equipment – much more than standard.
