## ADVANCED PRODUCTION SYSTEM FOR MANUFACTURING OF OPEN WALL ELEMENTS

**Auto Wall System** is a wall production line for production of open wall elements with sheathing and optionally breather membrane on one side. Completely CAD-controlled which means that it's controlled from automatically generated computer files. Allows production of constant change in wall height, length and thickness without losing efficiency or time. The walls are produced with maximum length to maximize usage for every station. In the end of the line the walls are cut to size, before stacking.

# SWEDISH QUALITY LASTS

Randek are pioneers in creating innovative automation solutions for customers within the prefabricated house manufacturing industry since the 1940s. Today, Randek is one of the world's leading suppliers of high-performance machines, robotic solutions and complete systems with production lines holding several world records in production capacity.

## PRODUCTS/SYSTEM

### CUT SAWS

Sturdy reliable cut saws delivered to house and roof truss manufacturers all over the world. From manual to fully automated

### WALL, FLOOR AND ROOF PRODUCTION LINES

A comprehensive product range with tailor-made systems for prefab manufacturing of walls, floors and ceilings. From manual to fully automated.

### ROBOTIC SYSTEM

Randek Robotics develop advanced systems in robotic automation. Delivering efficiency to customers in Europe, China, North and South America since the 1990s.

### ROOF TRUSS SYSTEM

Equipment for traditional and effective manufacturing of roof trusses and a revolutionising automated roof truss production system.

### BUTTERFLY TABLES

Innovative wall-turning tables. From moderate manual wall-turning tables to advanced with a range of options.

## RANDEK SERVICES
