

Unique. Precise. Compact.

EVOLUTION 7403 | 7405

Unique! 4-sided milling with
the new EVOLUTION 7405 4mat.

PRODUCTIVITY AND PRECISION

Unique Versatility and Performance

The technical data for the EVOLUTION series speaks for itself: Workpieces with height of up to 920 mm and unlimited length can be processed with the smallest possible space requirements.

Material thicknesses of 8 to 70 mm make the vertical machining centers from HOLZHER all-around machines for producing everything from drawers to casework and closet parts, furniture fronts and rear walls; in short complete machining of all your products.

The solid design of the EVOLUTION series guarantees you maximum machining quality and precision.

■ **Simple programming**

Equipped with a 19" monitor and the latest version of our user-friendly CAMPUS/NC Hops software. The truly comprehensive solution including aCADemy CAD, DXF import and versatile macros.

■ **Full equipment**

15 drilling spindles for 5 in-line holes each in X and Y directions as well as 6 horizontal drills and integrated sawing unit for quick and precise results (Fig. 1).

■ **100 % Precision – Your advantage!**

Only the HOLZ-HER EVOLUTION 7405 4mat offers complete machining of the surface and all 4 edges of the workpiece. Perfect appearance – perfect fit! (Fig 2).

■ **Shorter machining times**

Easy on material and time saving, because workpieces with lengths of up to 1,300 mm can be machined completely without reclamping. Up to 35 % shorter machining cycles (Fig. 3).

■ **Unique clamping concept**

Fully automatic positioning of suction cups. Automatic adjustment to material thickness for optimum results and precise dimensions (Fig. 4).

■ **Extremely versatile**

With optional tool changing package for 6 tools, including 6.5 kW HSK spindle, the EVOLUTION is prepared for all challenges (Fig. 5).

■ **Perfect access**

The generous machine door offers a free view of the machining work, as well as easy access for installing tools.
